### INFORMATION

Ninohe GM talks about the charm of the team

Levante Fuji Shizuoka is a professional cycling team belonging to the Japan Cycle League (JCL). JCL is the Japan Pro Cycle Road Race League, which was launched in 2021 and has 9 teams. Nine attractive players are enrolled in the team, and they are working hard day and night to win the championship. (As of July 2021)

There are various types of cycling competitions such as road races, track races, mountain bikes and BMX. Road racing is a sport in which one team consists of multiple people and competes for victory, and is held in the city where each team is based. We are also considering a race in Fuji City, so please join us when we hold it! (The world-famous race is the Tour de France. JCL consists of 6 people per team.)

Struggling to win

Ninohe GM explaining the charm of bicycles

JCL is a league that was established with the aim of community-based and regional revitalization, and Levante Fuji Shizuoka was also established with the same philosophy. In addition, there is growing interest in bicycles from the perspectives of recent social issues, the fact that they are an extremely ecological means of transportation, and the extension of healthy life expectancy, and we are aiming to enliven the cycling competition while contributing to the community. increase.

There is no professional sports team in Fuji City. On the other hand, I think it is a region with a high interest in sports, as there are big sacker teams in the neighboring towns and it is exciting. In addition, Shizuoka Prefecture has been a familiar area for athletes, as bicycle races have been held for a long time. Based in Fuji City, Izu for strengthening the climb, Fujinomiya, which is easy to run in a group

It was also attractive to be able to change the practice environment, such as around Minobe, Yamanashi Prefecture, and the riverbed of the Abe River for flat practice.

Biking practice is very hard, and can exceed 200km a day and 3,000km a month. The calories burned in practice reach 7,000 kcal per day. Since there is a lot of calories consumed, if you do not have a good balance of food, you will lose weight more and more (^ \_ ^;) Also, how do you put more effort into the pedals? , Always incorporate the latest training.

## What I am aiming for

- First of all, aim for the annual victory in JCL.
- We will train and discharge world-class athletes. And create an environment where local star players can fly from Fuji City to the world.
- Ultimately, we will develop regional development by bicycle and make Fuji City a place that is said to be a sacred place for bicycles.

Let's push towards our dreams!

## Player introduction

We would like to introduce 3 players from the local area out of the 9 players who belong to us.

## Junya Sano

## Significance of sponsors

Mr. Hiroyuki Kai, Global Public Relations Department / Corporate Planning Department

---

Levante Fuji Shizuoka is a community-based professional sports team with a base in Fuji City and is engaged in various activities. JATCO has been a sponsor since this year to support its activities. In the future, we will support their competitive activities and jointly plan participatory events in the local area, so please look forward to it.

## For beginners to enjoy bicycle road racing

### Reference site

Many people think that watching road races is a high hurdle, but if you take a step forward and understand the rules a little, it will be much more interesting.

Strategy of cycle road race that can be understood in 1 minute-flat ground sprint edition-
