I want to tell children-teaching at school Is it a senior who is active in the real world? Message ~

Hidefumi Fukasawa of the Parts Engineering Department, who serves as a local officer and PTA chairman of the school. What I told the children as a teacher for a day ... It will be useful for adults to hear.

In June, I introduced Mr. Akira Shirai of the Cost Planning Department, who has been active as a reserve self-defense official. How was it? Everyone in the JATCO Group is very active outside the company. My JATCO will continue to introduce wonderful employees who are shining brightly.

This time, we would like to introduce Mr. Hidefumi Fukasawa from the Parts Engineering Department, who is active in the community and schools!

What role!?

Mr. Fukasawa said, "In the town and school officials,

No one knows Mr. Fukasawa. "

A celebrity. Active for many years

It has been.

Work is over on weekdays as well as holidays

At night, sometimes I take paid vacation

Participating in various meetings and events

increase. Active as your child grows

Expanded the field and is now Fuji Municipal High School

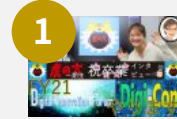

He is also the PTA president of the school.

Nurturing

Nowadays, in the field of education, we are focusing on telling children about the real society that cannot be learned in school with the help of people who work in companies. In the area where Mr. Fukasawa lives, there is a mammoth school called Fujine Minami Elementary School, which has more than 1,000 children. While your child is still in school and after graduation, he contributes as a PTA president, advisor, and school cheering party. This time, Fujine Minami Elementary School asked Mr. Fukasawa to give a lecture on career education to children.

Of course, Mr. Fukasawa agrees. What do you want to tell the children the most? The answer was clear in Mr. Fukasawa.

Very popular with children

On June 22nd, the teacher's class began for a day with materials that included JATCO's introduction in a quiz format, experience on a business trip to Mexico, and what he learned through his work.

State of class

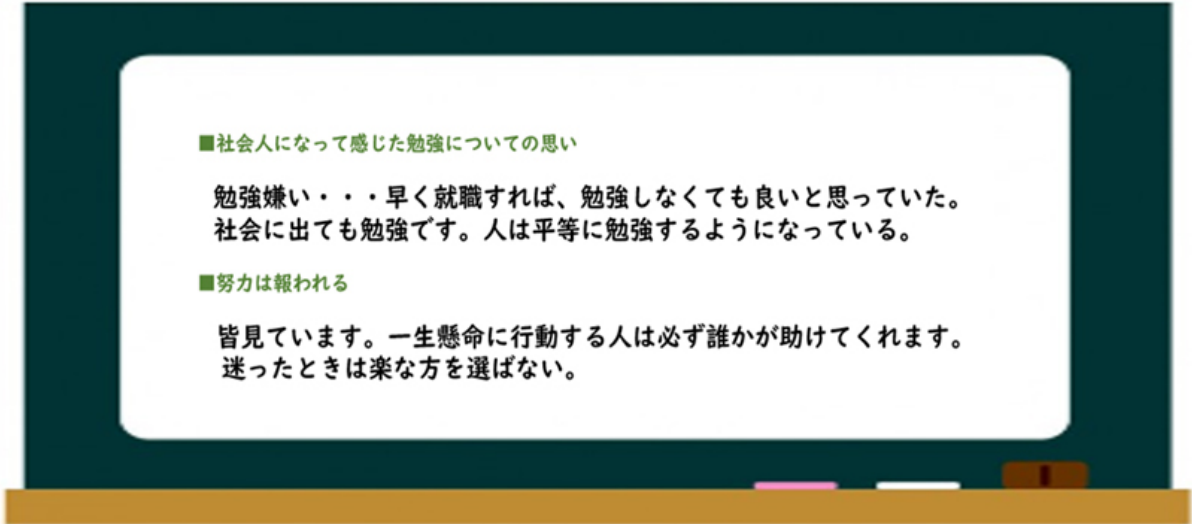

I was able to tell the children that Mr. Fukasawa himself was having fun while giving lectures.

prize. The 45-minute class was very exciting, with many comments from the students. In the lecture, the message that Mr. Fukasawa conveyed to the children from his own experience was very impressive.

And, as expected, he also told the children the importance of 5S, the former chief of JATCO, in an easy-to-understand manner.

Being able to ask elementary school students what they can understand for the first time after becoming an adult, going out into society, and working will surely be useful for the future of children. Later, I received a thank-you letter from the principal of Fujine Minami Elementary School and the students.

We introduced some of the activities of Mr. Fukasawa, a local celebrity. I hope that you will continue to play an active role for the community and for the children.

💡 The Global Public Relations Department is looking for information on employees who are active in various fields! If you have any information such as "I have such special skills" or "I am doing this outside of work", Please feel free to contact us regardless of whether you recommend it or not.

Next time ... I would like to introduce an employee who says, "If you draw a portrait, there is nothing on the right."

Please look forward to it ♪
