# Athletes are transmissions Curious about

Jatco's sponsorship contract with the professional cycling team "Levante Fuji Shizuoka"  
Everyone from "Oka" came to visit the factory. Athletes and manufacturing are completely different  
Although it is an industry, players are curious from the beginning to the end. Deepening mutual understanding,  
The win-win relationship is likely to deepen.

## Levante Fuji Shizuoka

Levante Fuji Shizuoka is a professional cycling company based in Fuji City, which was established in 2020.  
It's a team. JATCO not only supports the race, but also inspects the contribution to the community with the city of Fuji.  
We will continue to collaborate with Levante in a wide range of fields, such as discussions.  
There was a request from everyone at Levante, "I want to know about the sponsor company."

On November 29th, Junya Sano, Mario Takanashi, Shunpei Ishii, and Fumio Suzuki were selected.

With the addition of Ninohe GM, we had a factory tour.

A factory tour that took place in a completely different atmosphere from the race in uniform

Please take a look at the video.

## State of the tour

The transmission production site that I see for the first time. Players are transmissions

I was curious about the structure and manufacturing process of. In the forging process, lean forward and say, "Wow!

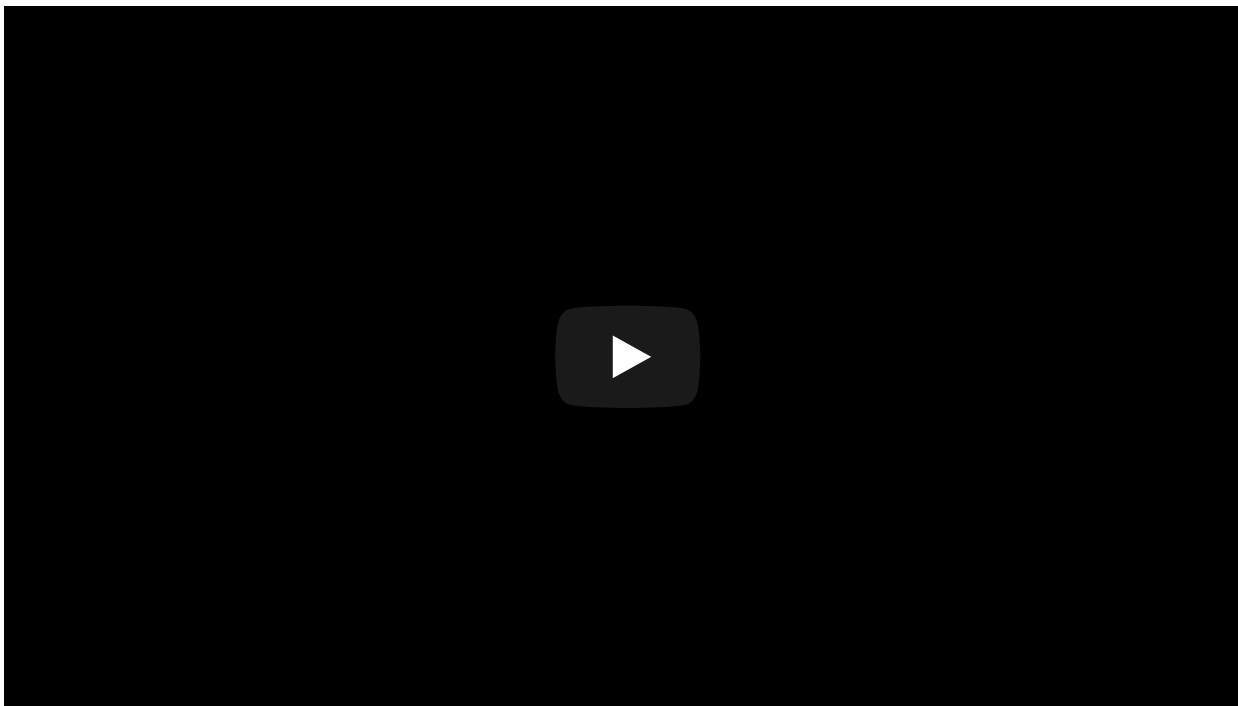

I". Also, YouTube produced by Levante at lunch in the bus or in the employee cafeteria.

Was taken, and it appealed to JATCO in a fun way.

For us who accompanied us, the impression of the players was "just fun". ancestor

It's much slimmer than I expected. Rather cute. But when you relax your thighs

It's very flexible, and when you put your strength into it, it becomes stiff. I got a glimpse of the ability of athletes.

You can watch a video of the factory tour of Levante players.
