INFORMATION INFORMATION

Jatco

The course is from Fuji City Central Park to Fuji City Hall with 3 lanes on each side, for a total of 6 lanes in Fuji City.

It was installed by blocking the main street. The race is a 1.8km course qualifying 15 laps

(27km), 30 laps of the final (54km), players passed in front of the spectators many times, and the ranking was changed every lap.

You can enjoy all the highlights from the changing appearance to the final sprint game. moreover

Depending on the location, athletes may pass a distance closer than 1m, so their speed and tires

You can enjoy realistic races such as sounds, breathing of athletes, and voices to other athletes.

In addition, the live race and commentary will be played on the speakers along the road, making it fun for those who are watching the game for the first time.

I was able to do it. "Meaning that players jump out of the group" "At that time, the following group

What are you thinking and where are you looking? " By knowing the bargaining and highlights,

The race will be interesting.

The results of the final race are posted on the official website of the tournament.

Although it is a 54km race, more than 10 athletes avalanche into the goal per second.

You can see that there was no difference. There are only places on the course where you can slowly flow

Rather, after turning back, 30 times or more to climb the slope while accelerating firmly

It was a tough course where I had to accelerate with all my strength.

Many citizens gathered along the road and applauded the athletes while enjoying the power of the race.

Was there. According to the official announcement of the tournament, about 4,000 people will be on the 19th and about 12,000 people will be on the 20th.

It seems that people watched the game. This is beyond the expectations of the organizers and will be held from next year onwards.

I got a big momentum.

CEO Sato will be the starter of the interleague game on the 20th, and will be the second-placed player at the awards ceremony.

-We gave awards such as. Continue as soon as possible with the mayor saying "I definitely want to do it next year"

The declaration of the event popped out.

Battle of Jatco and Levante carrying the locals

"Levante Fuji Shizuoka" is supported by JATCO as a sponsor. Held locally

Therefore, JATCO employees also expected, and the citizens also gave a big cheer.

Sano, Ishii, Suzuki, Umino, Takanashi, Nishimura in the JCL qualifying on the 19th

Six players will participate and aim to be in the 25th place to advance to the final. Sano is in the race

Although he tried to escape from the pups several times, in the end, 34 people were one second behind at the goal.

It was a turbulent result, such as the influential players failing to qualify in the squeezing melee. Levante

From now on, Sano and Takanashi will advance to the final.

In the final on the 20th, Levantev will face with five players from several leading teams.

Ji Shizuoka makes us feel a numerical disadvantage with two people. However, 40-year-old Sano is a local team

Showed me what he meant.

Joined the top group from the beginning, escaped alone for a while, and again at the end
By joining the top group, we will call it "Sano of the local Levante Fuji Shizuoka".
Coupled with the actual situation, it strongly appealed to the audience.

In the last few laps, my stamina ran out and I was almost half a lap behind the group, but the audience also
I knew Sano's best efforts. Send more applause and cheers than the lead group
Sano did not cut corners until the end and overtook the players who had fallen from the group again.
I was able to see a moving scene where the players and the spectators communicated with each other.
Levante Fuji Shizuoka is the pride of the locals and the pride of JATCO. Thank you. Sano.

JATCO's Pride Volunteer

Levante wasn't the only one who fought. From Jatco for a two-day event

A total of 69 people participated as volunteers and supported the operation. Borane

For the tiers, setting up the venue in the morning, controlling the spectators during the race, and blocking the road after the race

We had you do activity for almost whole day from cancellation to cleaning activity.

Volunteers wear JATCO's green bibs and get the job done quickly

The appearance will appeal to the citizens as a walking advertising tower for the existence of JATCO.

I did. In addition to the job of controlling the spectators of the race, we sincerely answer and answer inquiries.

Quickly pick up paper trash that dances in the wind and put it in your pocket.

It was a good one as a representative of Ko. The audience said, "The people of Jatco.

It's amazing to raise the company and help. "" Everyone, you're volunteers, right?

I've heard several times saying, "Uh?"

Actually, it's the first event to be held, so the operation doesn't go smoothly.

Sometimes. How can I move without receiving instructions from the city hall when setting up the venue?

Some people were unreasonably angry with the police without knowing. "Why go through here

"Don't do it," some people rushed to the public. But everyone has one complaint

Don't say, fulfill your responsibilities, help block and clear the road, and finally clean the course.

He came back.

Most of the respondents answered "I want to participate again" in the questionnaire after the completion, and said "Others".

I was able to work with the volunteers of the company.” “ Citizens and other departments

I'm glad I was able to interact with people from all over the world. "" I learned the fun of cycle road racing. "

Some people said, "I'm glad that it helped someone."

Volunteers and this culture are the pride of JATCO.
