◆Interview

Awardee's comment

It's an honor! I'm glad that everyone can learn about JGF's hard work and initiatives through My JATCO.

It took me three years, but I was able to get JGF off the ground as a business, starting with no knowledge of entrepreneurship, which JATCO is currently passionate about. I did. I was given an incredible opportunity by the company, which led to my personal growth and contributed to the employment of people with disabilities.

Enthusiasm for next year

I would like to use the experience and connections I have cultivated through the launch of JGF to demonstrate leadership and lead the team in the electrification business as well.

Editor's comment: Mr. Kigawa is always full of energy and is truly a walking power spot. I feel refreshed whenever I meet him.

✅ Best Actor Award (Actress Award)

The Best Actor Award (Actress Award) went to Ms. Ueda from the Project Procurement Department. In an interview article with Ms. Ueda, who won the grand prize at the Digi-Con World CUP (hereinafter referred to as Digi-Con), a competition for business improvement cases using DX at Global JATCO, she said, "I don't think my work can contribute to the company. The decisive factor in winning the Best Actor Award was her honest and bright expression. Congratulations, Ueda-san! 🎉"

When winning the Digicon Grand Prize

◆Interview

✔ Awardee's comment

I was surprised by this surprise award. I believe that Digicon was able to receive this award thanks to the help of everyone who supported us. As an individual, I have been working hard to improve myself over the past year, so I am really happy to receive this award at My JATCO.

✔ What was the reaction from people around you after appearing on My JATCO?

We received inquiries and consultations from various departments who wanted to use the programs developed with the digital controller, and we realized the magnitude of the response.

✔ You have won consecutively at the DigiCon held in February of this year. Please tell us the secret to staying motivated.

This year, I was put in charge of the electrification business and have been working on improving DX from a new perspective. I continue to have the same desire to help many people in a wide range of departments.

✔ Photos from the award ceremony

Project members also rushed to the award ceremony. The team atmosphere is also great!

Editor's comment: It was very impressive to see all the members rejoicing over Mr. Ueda's award winning as if it were their own.

✔ Best Smile Award

The person who won the Best Smile Award, the last award to conclude the My JATCO Awards, was Mr. Mochizuki from the casting department. This smile, shown at the appointment ceremony for site supervisors for the second half of FY23, was unanimously awarded to the editorial staff. 🏆

Mr. Mochizuki is interviewed with a big smile on his face.

How do you like Mochizuki-san's bright smile?

◆Interview

✅ What was the reaction from people around you after appearing on My JATCO?
My boss and colleagues saw My JATCO! I received a lot of calls. I also received a call from a colleague at another site that I hadn't seen in a while, and new communication was born. I'm glad that I was able to tell my family about what's going on at the company, which they don't usually get to see.

✅ It's been about half a year since you became a section manager. Have you noticed any changes?

I feel that the way I see people around me has changed since I moved up from the position of foreman to section chief. Next year, the scope of my responsibilities will further expand, so although I feel pressured, I will enjoy my work.

✔ View of the award ceremony

They showed many wonderful smiles during the award ceremony. 😊

Editor: Even during the interview, the phone kept ringing, and many people came to ask Mr. Mochizuki for advice. He was so nice to be greeted with a smile each time.

○Editor's note

My JATCO interviews are always a lot of fun, and each article has its own special meaning.

I was very happy to be able to meet the award recipients again and hear how they are feeling empowered.

This year, our Global Communications Department also took on a variety of new challenges. One of them is "JATCO HOT TOPICS". It started in August 2023 with the concept of "delivering the changes and reforms currently occurring at JATCO in a timely and concise manner," and eight months have already passed since its launch. In the ever-changing automobile industry, both JATCO and the Global Public Relations Department will ride the waves of change and spread the word about your success while enjoying the changes!
